

## **CORE Kids Summer Camp - Additional Support Policy**

We at CORE Kids value all our amazing kids, and we endeavour to create an all-inclusive ethos for all kids to reach their full potential. To successfully achieve this, we encourage our parents/guardians to consult and discuss with us if your son/daughter;

- Receives one-to-one support at school
- Has a statement of Special Educational Needs
- Currently awaiting diagnosis or assessment
- Or, as a parent/guardian, you feel your child requires additional support within a group environment.

If this is the case for your son/daughter, we ask a familiar adult to remain and support your child throughout the session so that they can actively participate in our program.

This may be their parent/guardian or someone you choose to be solely responsible for your child during our program. This will be subject to Access NI clearance.

For the safety of everyone, this selected person is only there to support your child, and they should only interact with your child and CORE Kids staff during our programs.

Our coaching team is responsible for all children, including your child. If there are any issues involving other children, this person must inform the coach/coordinator and not take any action themselves.

If, after the first session, you and the coach/coordinator feel that your child can participate and enjoy the program without any additional support, then you will not be required to attend the rest of the remaining sessions with your child.

Should your child be unable to attend our camp without support, we will refund you for the remainder of the camp days.

If you have any further questions, please do not hesitate to email us
